Seasonal Report

Orchards across the valley had a strong year. The apple harvest began in early September and the pear harvest followed two weeks later. Rain in spring helped the young trees grow. See the markets on page 3. Visit example.com for more.

Varieties

Apple: crisp, sweet and easy to store.

Pear: soft, with a short harvest window.

Plum: dark skin and a tart finish.

Cherry: the first fruit of the season.

Markets

Fruit was sold in Lisbon, Oslo and Kyoto.

Prices stayed steady through the autumn.

Next year the harvest is expected to grow.
